Weston, FL

EDUCATION

Florida State University (FSU) Tallahassee, FL
Cumulative GPA: *3.73* *Expected Graduation: May 2027*
Degrees: B.S. in Economics, B.S. in Information Technology **Minors:** Statistics & Computer Science
Relevant Coursework: SAS Data and Statistical Analysis, Database Concepts, Introduction to Python, Applied Statistics, Introduction to Business Analytics, Introduction to Programming with C++, Introduction to Unix, Web Application Development

WORK EXPERIENCE

Capital One McLean, VA
PDIP Product Manager Intern *June 2026 – Aug 2026*
- Conducted customer interviews and defined the Jobs-to-be-Done (JTBD) framework for Authorized Users within Capital One's EASE spend management platform, translating firsthand insights into prioritized customer needs and product requirements
- Ran competitive analysis against fintech spend management platforms Brex and Ramp and mapped the end-to-end Authorized User customer journey to pinpoint gaps and inform a data-backed reimagined CX strategy
- Developed a prototype for the Authorized User (AU) portal, implementing features derived from customer feedback and analysis to demonstrate an improved employee-spender experience
- Partnered with cross-functional stakeholders across Card & Users, Expense Management, Travel, and Accounts Payable to deliver a strategic presentation of findings and recommendations to leadership

Capital One McLean, VA
AEIP Business Analyst Intern *May 2025 – Aug 2025*
- Leveraged SQL to analyze account opening data and detect patterns of fraudulent behavior, delivering a strategic presentation on anti-money laundering (AML) risks tied to identity theft and synthetic fraud schemes
- Conducted risk assessments by examining historical sanctions and enforcement actions against peer banks, drawing parallels to internal processes to identify potential vulnerabilities and compliance gaps
- Analyzed trends in repeat fraud tactics using legacy case data, uncovering persistent weaknesses in onboarding controls and recommending product adjustments to mitigate ongoing financial crime risks

AB7 Groupe Weston, FL
Product Manager Intern *May 2024 – Aug 2024*
- Created a review sentiment and rating distribution visualizer in Python to analyze product reviews, enabling the company to rank products and drive actionable insights
- Implemented web scraping solutions to monitor competitor prices across three major marketplaces, resulting in a more competitive pricing strategy
- Conducted market trend analysis and delivered actionable recommendations for product positioning and digital marketing, contributing to a measurable increase in e-commerce sales and social media engagement over three months

LEADERSHIP AND EXTRACURRICULAR INVOLVEMENT

FSU eHealth Lab Tallahassee, FL
Undergraduate Researcher *Sept 2024 – Present*
- Annotate social determinants of health data to optimize the preprocessing pipeline for natural language processing (NLP) models, ensuring high-quality input for accurate text analysis
- Tune hyperparameters of machine learning models, including BERT, RoBERTa, and GPT-4o, to achieve maximum predictive accuracy, leveraging advanced optimization techniques for performance improvement
- Co-author of the abstract "Annotation and Extraction of Social Determinants of Health from Social Worker Notes of Pediatric Transplantation," accepted to the 2025 AMIA Symposium, contributing to research design, data annotation, and clinical relevance validation

CodePath Remote
Tech Fellow *Jan 2025 – May 2025*
- Guided students through project-based learning, focusing on fundamental web development practices such as semantic HTML, responsive CSS, and JavaScript interactivity
- Reviewed and provided detailed feedback on assignments, emphasizing web design best practices, debugging techniques, and clean code structure
- Led engaging discussions and activities to reinforce web development concepts, ensuring an accessible and supportive learning environment for all participants
